

Acadia News

On **Friday March 9**, students and their families are invited to go to Acadia's campus for Experience Acadia Day—the on-campus transition event. This is an opportunity for students to receive academic advising and register for courses. Tours will also take place, enabling students to see one of Canada's most beautiful campuses. [Students can register online here.](#)

Money Matters

All students who wish to be considered for a scholarship must apply for admission and provide all required admission documentation by **March 1, 2018**. Students who have been offered admission are encouraged to check their Acadia Central account—Acadia's online web portal for any other required documents. Scholarship offers are made to successful candidates in late March. We'll be happy to assist any students along the way!
