2013-2014 New Brunswick Elementary Student Wellness Survey

The New Brunswick Elementary Student Wellness Survey began in 2007-2008 for grades K-5 and was repeated in 2010-2011. As part of the NB Wellness Strategy, the New Brunswick Department of Healthy and Inclusive Communities in collaboration with the Department of Education and Early Childhood Development and the New Brunswick Health Council have undertaken the 2013-2014 NB Elementary Student Wellness Survey to measure and report on the wellness behaviours of all students in grades K-5. Students will be asked questions about their wellness behaviours such as their eating and physical activity habits, bullying, mental fitness and how connected they feel to their school. All students in grades 4-5 will be asked to complete a student wellness survey, and parents/guardians of all students in grades K-5 will be asked to complete a family wellness survey. By taking the time to complete this survey, students and parents can contribute to their school's improvement plans and student wellness activities. On [insert survey date], our school will be participating in this survey, as we aim to improve the health and wellness of children in our community. If you would like more information on this survey, please call the New Brunswick Health Council at 1-877-225-2521.
