

COVID-19 OPERATIONAL PLAN FOR SCHOOLS

Sept. 3

To ensure each school environment safely applies risk mitigation measures consistent with Public Health guidance and the *Occupational Health and Safety Act* and Regulations. All schools, and district offices, must develop a written COVID-19 Operational Plan to provide the safe environment needed for students and staff. Refer to the *Return to School*, September 2020 document and its appendices for primary support for the requirements listed below. This completed document shall be submitted to Clare Tooley, clare.tooley@nb.ca for review by August 26th, 2020. It will then be signed off by Zoë Watson or John MacDonald and returned to the principal for implementation and distribution.

The following document is intended to provide a check list with spaces for each main topic area along with resources. This will help the plan owner, (School Principal), outline each school's Operational Plan. Communication plans must consider and include staff, students, parents/guardians, visiting community professionals, and public. The District Occupational Health and Safety Coordinator is expected to be the primary support for staff and students. School Joint Health and Safety Committees (JHSCs) should be considered integral to preparations and support for September operations and beyond.

COVID-19 OPERATIONAL PLAN FOR SCHOOLS

Section 1 - RATIONALE – Effective Risk Mitigation – Infection and Prevention Controls

The best prevention controls in a school/district are achieved by first focusing on recommended physical distancing requirements and taking every reasonable step to configure the physical site to apply an appropriate physical distance between people. All must practice appropriate hand hygiene and cough / sneeze etiquette. Once all reasonable options in a category have been exhausted, move to the next category. Refer to table below for clarification.

In addition to the guidelines and regulations, everyone in the school is responsible for ensuring their own safety and the safety of all others.

Visible signage with clear messaging is a key component to effective communication in the prevention and control of COVID-19.

The K-12 “Return to School September 2020” document is the comprehensive and first reference point for this document.

Additional Consideration / Other Notes: *Describe how any additional considerations are being met.*

When we hold our provided lunches, we will ensure that persons serving the food wear gloves and a community mask. Students/staff will not serve themselves.

Chartwell will provide their operational plan. If we have any other external organizations within our school, we will obtain a copy of their Operational Plan and ensure they are aware of our plan as well.

We have turned off all fountains and will only be using bottle fillers. Signage has been posted to remind people not to touch their bottle to the spout as well as a reminder that fountains are closed.

Compass Sussex will follow the same guidelines for their operational plan as outlined for SRHS.

SRHS Visitor Guideline

VISITOR GUIDELINE COVID 19 –
These items must be included as a minimum at each school/location.

Who is defined as a visitor?

- Parents/Guardians/Siblings/Family Members of students
- Visiting Professionals (ex: substitute teachers, SLF, EAL, Public Health Nurses, Public Health Officers, Fire Marshall, emergency personnel, any person not regular to the school)
- ASDS Maintenance Personnel
- Contractors, delivery people if they enter the building past reception
- Volunteers
- This is not an all-inclusive list, if someone is within the school who is not a regular, everyday staff member, or student of the school, they need to be signing in for contact tracing purposes.

Visitor Guidelines:

1. Upon arrival, all visitors will review the GNB Screening Poster.
2. All visitors must wear a mask and are encouraged to wash/sanitize their hands upon entry to the building.
3. Visitors are to maintain physical distancing of 2M/6FT wherever possible between themselves and others, if distancing not possible, a community mask must be worn.
4. If, after reviewing the poster, the visitor is permitted to enter the building, all visitors will proceed to reception and sign-in. *Signing-in is mandatory for contact tracing purposes.
5. After the visitor signs in, if they are unfamiliar with the COVID guidelines within the building, the visitor must be escorted to their destination. Abiding by all signage and markers as they are being escorted.
6. Wash their hands frequently using soap and water or by using hand sanitizer.
7. Avoid touching the face, eyes, nose or mouth with unwashed hands.
8. Cover the mouth and nose with a disposable tissue or the crease of the elbow when coughing or sneezing.
9. Visitors are encouraged to sanitize their hands once they have left the building.

Other Notes:

If you start to feel ill while at the school, you are to put on a community mask immediately and promptly exit the building. If you require someone to pick you up, you must wait with a mask on and maintain physical distancing of 2M/6FT between yourself and others.

Emergency Situation – The person in which the visitor is there to see is responsible for that visitor. If the visitor is someone familiar with the school's process, proceed as normal or as directed by the school.

Some groups (ex: speech/language pathologists) may have additional measures in place. Visitors will abide by these protocols as directed by these groups. If they are required to complete a screening/sign in form with these groups, the visitor would not need to sign in as well with reception.

Thank you for keeping our students, staff and the public safe!

SRHS Risk Assessment

Risk Mitigation Tool for schools operating during the COVID-19 Pandemic

Objective: This tool will assist schools to assess risks during the coronavirus disease (COVID-19) pandemic.

Directions: Answer each question 1-by-1 by selecting the Risk Level of low, medium, high, or N/A / *Answer any controls available?* from the drop down list in column 1. It is recommended to complete this as a group so there are views from more than one person on whether an item is low - medium -high.

Utilize your schools Operational Plan to outline the controls put in place to manage the risks identified. Select Yes-No-N/A from column 2 to identify controls have been included in your plan.

Use column 3 to then select low, medium, high, or N/A to identify that the risk has been controlled, and therefore creating a lower level of risk.
