School Supplies for Next School Year

Two years ago, our teachers purchased all the school supplies for all of our students. Over those two years we have lost over \$1500 because of unpaid fees. We were planning to do this again for the upcoming 2021-2022 school year but we can no longer absorb this financial burden at the school. So we will **not** be buying school supplies for all students at the school for this upcoming year.

Grade level school supply lists will be coming home with your child's report card this year in order for parents to purchase their own children's school supplies for the upcoming 2021-2022 school year.

Need a Tutor?

If any families are interested in receiving tutoring sessions over the summer months there are some staff members interested in providing this service for a fee. Please reach out to the school if this would interest you and we can provide further information. Thank you.
