Harry Miller Middle School
Interscholastic Athletic and Extra-Curricular Activities Student Policy

Participation in interscholastic activities is a privilege for students. Interscholastic athletics and extra-curricular activities are completely voluntary programs. Because they are voluntary and because those participating represent the student body, it is mandatory that to qualify, the standards must be the highest. This is particularly true of academic requirements, school citizenship, and sportsmanship. The dignity of the school program is reflected through interscholastic athletics and extra-curricular activities. Those who take part must conduct themselves in a manner which is above question.

1. In order to participate on a Harry Miller Middle School team or in extra-curricular activities, students must fulfill their academic requirements and behavior expectations.

- Attendance of classes
- Course assignments completed
- Homework completed
- Proper conduct in class

2. The student must conduct him/herself in an appropriate manner, remembering that as a member of a school team or club, the student represents him/herself, the student body, the school and the district. Consequently, the student, as well as the coaches, parents and spectators are reminded that school rules apply in the following circumstances:

- a.) The time before, during and after a game/practice or activity while still on school property used by the school for a game/ practice or activity.
- b.) The time traveling to and from a school trip when the student is traveling as a group such as the case with a bus, van, or school-approved drivers.
- c.) The time before, after, or between school activities, when under the care of coaches or supervisors in such places as restaurants, shopping malls, stores or similar places of business or recreation.
- d.) At all times (24 hours per day) when students are on overnight trips or similar extended trips.

3. There is no guarantee that all players/participants will receive equal playing time or positions of responsibility. The coach/supervisor will consider the participant's ability as well as his/her individual role with respect to the overall performance of the group's goals.
