

Good afternoon, this is Bonnie Demmons, with the homeroom schedules of "office hours" for our students attached below. These "office hours" are specific times when your child's teachers will connect for the specific subject and time throughout the week. There is also a designated homeroom time, when their homeroom teacher will connect with the students for a weekly check-in as a group. Each of these "office hours" is attached above and organized according to their homeroom teacher's name. Please note that for 6/7Toole, there is both a 6Toole and a 7Toole schedule of "office hours". It is our intention to keep these times each week, unless a situation arises causing us to change them. We will certainly make you aware if such changes are needed. The remainder of the school day our teachers will be monitoring Microsoft Teams and their e-mail to support their students. These schedules of "office hours" will also be placed on our school website for future reference and homeroom teachers will be adding them to their Homeroom Teams for their students.

Our staff are receiving requests to join the Microsoft Teams groups of subjects and Homerooms by parents, and we would ask that you allow your students to participate in the Teams on their own, to take responsibility for not only the Technology aspect but also the learning that will take place in using this independently. A reminder that the completion of these activities is at the discretion of the student and the family. We know that there are varied circumstances in the homes and not all will be able to complete. We are flexible and here to support our students and families in a variety of ways.

Thank you so much and we hope you had a lovely, restful, long weekend. Take care.
