

Frequently Asked Questions

If a box on the report card is blank or says N/A, what does that mean?

N/A indicates there is not enough evidence to give a comment or performance level at this time. A blank box indicates the strand has not been assessed in this reporting period.

What will teachers use to decide my child's performance level?

Teachers will use a collection of evidence about a student's learning based on the grade level expectations. This collection will include products completed by the students, observations made by the teacher, and conversations with your child.

How is the final achievement level calculated?

Each term stands alone. Terms will not be averaged on the final June report card. Student achievement level will reflect that most recent success.

Will there be teacher comments on the new report card?

Teachers will summarize your child's learning each term by making specific comments on the report card. These comments will include strengths, needs, and/or next steps.

What if I still have questions?

Please contact the teacher if you have specific questions about the academic progress of your child.

Response Form

Does the response form for parents and students have to be filled out?

Parent expectations and students setting their own learning goals are two factors research says improve academic achievement; therefore, it is recommended students and parents reflect together and fill out this form. The only requirement is for parents/guardians to sign and return the form so the teacher knows it was received. All forms will be read and kept on file.
