DATL VISION & MISSION

Our school community will be encouraged and supported to be the best we can be!

Our mission is to work in partnership with parents and the community to provide quality education in a safe and nurturing learning environment.

High expectations are the key to everything. The students, teachers and parents have set very high expectations and strive to meet them.

- The student population at DATL is 229 students. We have a teaching staff of 16. We have 7 EA's, one Administrative Assistant, one full time and one part time Custodian.
- We are very fortunate to have a supportive Parent School Support Committee.
- We are also very thankful to have many dedicated volunteers. Our volunteers help to support and to improve every aspect of our school community.

Provincial Assessment Results

The most recent provincial assessment results for DATL are very impressive!

91% of our students achieved appropriate or above in grade 2 reading.

These results are above provincial and district averages. The provincial education plan, *When Kids Come First*, has set a target of 90% for all schools by 2013.

We continue to strive to improve in reading, writing and mathematics through setting goals and strategies in our School Improvement Plan with our staff and Parent School Support Committee.
