Family Day!

Family Day, February 19th is a day to celebrate families and the important role that families play in our lives. In our school, we celebrate diversity and inclusion and teach our students that not all families are the same, and every family is special. To that end, we will celebrate Family Day in a big way! Each child will be bringing home an activity based on the book, "I Love You More" by Emil Sher. In this book, they express their love by using a word game where they use pairings of words in a certain order. The second part of the pair makes the first part feel happy because it feels needed. Ex. I love you more than umbrellas need rain. Your child will be completing this activity about you at school. We thought it would be fun if someone at home who loves them completes one. Stay tuned for further instructions!

National Random Acts of Kindness Day:

Saturday, February 17th

A Random Act of Kindness is a spontaneous or planned selfless act performed to either help or cheer up a stranger or someone we know for no reason other than to make people happier. We can do random acts of kindness any day but this is a special day to make a conscious effort to make someone's day.

Your child will learn about random acts of kindness and we will send home a slip with your child so you can record any random acts of kindness and send it back to school.

Celebrating 100 Days of School – Week of Feb.19

An interesting way to incorporate real math into school is to celebrate the 100th day of school. We begin counting on the first day of school and end on the 100th day which usually falls mid February. This year the 100th day of school will be celebrated on February 16th. The teaching opportunities prior to the actual day are varied. The children (depending on grade) learn to count by ones, twos, fives, and tens. A variety of activities take place on the 100th Day.
