

The lost Puppie.

391

Miley and Hailey were neighbors

and lived on main street. They

both had puppies and decided to

take them for a walk in the

forest. When they got there

some one texted both of them

and they let go of the leash! They

gasped! The mysterious puppies ran

away! First they looked and looked

and looked everywhere they could

The lost Puppies

think of... they couldn't find

them. Then the puppies found

each other. so did the teenagers... but

then the teenagers split up...

and made it harder to find them.

Soon the sky was red and

pink as a velvet sky. Then the

dogs sniffed their way home.

The teenagers learned a lesson never

to text when you're walking a puppy!
