

COVID-19 OPERATIONAL PLAN FOR SCHOOLS

To ensure each school environment safely applies risk mitigation measures consistent with Public Health guidance and the *Occupational Health and Safety Act* and Regulations. All schools, and district offices, must develop a written COVID-19 Operational Plan to provide the safe environment needed for students and staff. Refer to the *Return to School*, September 2020 document and its appendices for primary support for the requirements listed below. This completed document shall be submitted to Clare Tooley, clare.tooley@nbed.nb.ca for review by **August 26th, 2020**. It will then be signed off by Zoë Watson or John MacDonald and returned to the principal for implementation and distribution.

The following document is intended to provide a checklist with spaces for each main topic area along with resources. This will help the plan owner, (school Principal), outline each school's Operational Plan. Communication plans must consider and include staff, students, parents/guardians, visiting community professionals, and public. The District Occupational Health and Safety Coordinator is expected to be the primary support for staff and students. School Joint Health and Safety Committees (JHSCs) should be considered integral to preparations and support for September operations and beyond.

Section 1 - RATIONALE – Effective Risk Mitigation – Infection and Prevention Controls

The best prevention controls in a school/district are achieved by first focusing on recommended physical distancing requirements and taking every reasonable step to configure the physical site to apply an appropriate physical distance between people. All must practice appropriate hand hygiene and cough / sneeze etiquette. Once all reasonable options in a category have been exhausted, move to the next category. Refer to table below for clarification.

In addition to the guidelines and regulations, everyone in the school is responsible for ensuring their own safety and the safety of all others.

Visible signage with clear messaging is a key component to effective communication in the prevention and control of COVID-19.

The K-12 “Return to School September 2020” document is the comprehensive and first reference point for this document.

Instructions: Go down the list one-by-one; review the resource materials as applicable. Describe in “Notes” box how you plan to implement the specific items at your school. To help you remember, under the “Status” column, you can select if the section is *done, in progress, not started, or not applicable*. Communication Notes: *Describe how expectations are being communicated to the various stakeholders.*

Our school will provide all staff an in-depth review of the Operational Plan on Monday, August 31, when teachers return, and again Friday, September 4 when Educational Assistants return. Custodial staff will assist with the physical layout of the building with all signage. The Operational Plan will be reviewed with them ahead of them assisting with this task. Any Custodial staff who did not receive the presentation prior to assisting with the signage will be present Friday, September 4 with Educational Assistants to review the Operational Plan.

The Visitor Guidelines have been posted at our school's reception. This information has been communicated home as of Monday, August 24. Visitor Guidelines will be posted on our Website and on our Facebook page as well. All supply teachers, supply EAs, and supply custodians will need to review the Operational Plan, which will be posted on our website September 3, before entering the school. Each door will have a poster notifying Visitors that they are only allowed entry into the school when an appointment has been made with the school principal. Visitors requesting an appointment are to call 832-6024.

The information regarding the process for visiting the school will be communicated to our students' parents/guardians through a letter communicated home and via email, Facebook, school website and Twitter on Thursday, September 3. We will continue with frequent communications to our parents and guardians via these means, regarding any relevant changes and updates to our Operational Plan.

The Operational Plan will be presented to all students the week of September 8 through 11. Through a staggered entry, students will receive a PowerPoint presentation about the Operational Plan, and all grade nine classes will have a guided tour throughout the entire building to be sure they understand the layout and all signage. Part of the presentation is a map of the school with the directional arrows to be followed.
