

Good morning Huskies! These are your morning announcements for Tuesday, October 23, and today is a regular schedule.

For anyone looking to purchase Grad Clothing you can come pick up an order form from the office and return it to Mrs. Richard. (10/30)

The Boys Basketball tryouts will be on Wednesday, Oct 24 6-8. We plan on having both a JV and Varsity boys team and ALL ARE WELCOME! (10/24)

A Christmas Carol – rehearsal today at 3:45. Pages 10-18 will be covered.

The second girls basketball tryout will take place today from 4 – 5:30. Please see Ms Myers if you have any questions.

Everyone doing Spook Trail needs to go to Mr. Wetmore's room at lunch for a mandatory meeting.

Trick or Eat will be taking place next Wednesday on Halloween. Sign your team up to support your school and the Hampton food basket!

It is day 2 of Science and Technology Week and today's theme is SKILLED TRADES with a focus on CARPENTRY AND FINE WOODWORKING. Today some students will be visiting Mr. Cameron to learn how the CNC machine works. Here are today's trivia questions:

1. What is the name of the study used to identify the age of trees and the environmental effects on their growth?
2. Did you know that if cabinetmakers don't properly dry their lumber before building, your furniture can literally fall apart? What is the ideal moisture content of wood used for cabinetmaking, and how do we measure it?
3. CNC machines are often used in skilled trades to create custom shapes in various types of materials, which may include 3D replicas of human faces and various components for prosthetic limbs. What does CNC stand for?
