#### MAINTENANCE REPAIRWORKER III (Journeyman)

##### DEFINITION:

This is skilled work at the journeyman level in one or more building trades. Work involves the maintenance and repair of buildings, machinery and equipment. The employee must possess a journeyman certificate in one or more trades and is required to work at the journeyman level. Work is not limited to the trade in which the employee possesses a journeyman certificate. The employee may maintain records of stock of building materials and supplies and requisition materials and supplies for repair and maintenance projects. Work assignments are received verbally or by written instructions which may be accompanied by sketches or diagrams. Performance is reviewed by a designated superior through discussions, observations, inspections, reports and overall results achieved for conformance with established standards.

N.B. Other related responsibilities may be assigned as necessary.

**QUALIFICATIONS:** Graduation from high school, or GED, and considerable diversified experience at the journeyman level in the applicable trade(s) and considerable supervisory experience; or any equivalent combination of training and experience. Strong interpersonal and leadership skills, good verbal communication skills and a comprehensive knowledge of provincial and district rules, procedures and regulations specific to the job function are required. Ability to operate a computer and appropriate software programs is required.

**NECESSARY SPECIAL REQUIREMENT:** Possession of a valid journeyman certificate in the Carpentry trade as issued by the New Brunswick Department of Training and Employment Development

Comp. #	Classification	Anchor Location	Perm / Temp	Hours	Rate of Pay	Effective Date	End Date
SPS001SJ	School Plant Superintendent	Simonds High School	Permanent	8 hours/day 7:00am – 3:30pm (Hours Subject to Change)	29.02/hr.	Immediately	

**QUALIFICATIONS:** Graduation from High School, or GED, supplemented by technical training in the operation of heating plants and auxiliary equipment, and considerable supervisory experience; or any equivalent combination of training and experience. Strong interpersonal and leadership skills, good verbal and written communication skills and a comprehensive knowledge of provincial and district rules, policies, procedures and regulations specific to the job function are required. Ability to operate a computer and appropriate software programs is required. **Necessary Special Requirement:** Possession of a valid Fourth Class Power Engineer's License as issued by the New Brunswick Board of Power Engineer Examiners.

**DEFINITION:** This is highly responsible and supervisory work in the operation and maintenance of a large heating system in a major school complex. Work involves responsibility for the operation and maintenance of an electrical and or a steam heating plant and all allied electrical and/or mechanical systems. Duties include supervising the activities of power engineers, plumbers and electricians in the operation and maintenance of heating plants, heating and refrigeration systems, allied auxiliary units and electrical appliances; assigning and monitoring work and evaluating performance. Duties may also include the installation of new equipment and the alteration of heating systems, sprinkler systems, refrigeration systems and auxiliary equipment; requisitioning fuel, parts and equipment; keeping records of fuel consumption, maintenance and hours

worked by staff. Work may also include the supervision of all custodial staff employed in the school. Employees of this class perform their duties independently within the framework of established procedures, policies and regulations. Performance is reviewed by a designated superior through discussions, observations, inspections, reports and overall results achieved for conformance with established standards. Other related responsibilities may be assigned as necessary. N.B. Other related responsibilities may be assigned as necessary.
