2. That will open a web page, where you'll see two choices: "Download the Windows app" and "Join on the web instead". It's probably easier to **join on the web**, you can use either Microsoft Edge or Google Chrome. Your browser may ask if it's okay for Teams to use your mic and camera. You can choose to do this or not, as you won't be on camera in this meeting.
3. Enter your name and hit **Join now**.
4. If you arrive early, you'll get a message that the event has not yet started. Adjust your speaker volume, make some popcorn, and the event should start automatically at the designated time.
