

NEW BRUNSWICK MUSEUM MUSÉE DU
MUSÉE DU **NOUVEAU-BRUNSWICK**

NEW BRUNSWICK MUSEUM LIVE ONLINE PROGRAMS

Bring the New Brunswick Museum into your classroom through dynamic and interactive live online programming! Students will have the opportunity to interact with NBM interpreters, live in the galleries, as they present museum displays, collection pieces, and engaging digital content.

ABOUT OUR PROGRAMS

- All programs span approximately 45 minutes including time allotted for questions (one opportunity for questions halfway through and another at the end of the program)
- Students will have the chance to interact with two NBM interpreters and see inside the galleries
- Programs include a combination of livestream video and other digital content such as slideshows and videos
- Programs are available in French and English, and closed captioning is available through Microsoft Teams software
- Program time slots are available Monday to Friday from 10am to 2pm and bookings are required two weeks in advance

WHAT YOU WILL NEED

- High-speed internet connection or Ethernet hookup
- Webcam
- Microphone and speakers
- Microsoft Teams software

AVAILABLE PROGRAMS

Marine Life

Under the Sea – Grades 1-5

Students will learn about the rich biodiversity in New Brunswick's waters including its various marine habitats and marine species including whales, sharks, turtles, and seals, through the use of engaging videos and museum galleries and specimens.

Ocean Conservation – Grades 6-12

Students will learn about a variety of marine species present in New Brunswick waters and the threats they face as a result of climate change and habitat loss. They will have the opportunity to see behind-the-scenes videos from the New Brunswick Museum that feature specimen storage and conservation, as well as a time-lapse documentation of a whale necropsy.

Natural Science

Things with Wings – Grades 1-5

Students will learn about the rich biodiversity in New Brunswick's forests including birds, bats, and moths, through the use of engaging videos and museum galleries and specimens.

New Brunswick Biodiversity— Grades 6-12

Students will learn about the rich biodiversity of New Brunswick's Acadian Forest including fungi, tree, and animal species. Through engaging videos and discussion of museum fieldwork, students will have the opportunity to learn about the environment around them and what can be done to protect it.

Programs start at **\$50.00**

TECH SET-UP

Ensure that you have updated Microsoft Teams software installed on your computer and that you have a working microphone and webcam (built in sound for each is fine).

You will receive an email from the NBM Programs Department with your program name and school or organization name.

The email will contain an invite to a Microsoft Teams meeting that will be scheduled for the program timeslot you requested. Please verify that both the program title and time are correct.

On the day of the program, open the meeting invitation 15 minutes before the program is set to begin. The Programs team will join you in the “meeting room” and make sure everything is working before the program begins.

If you have any technical issues or questions immediately in advance of the program please call **Stephen at (506) 333-1008** or **Christiana at (506) 349-4120**.
