

Anglophone South

School District July 1, 2012

- On January 11, 2012, the New Brunswick Minister of Education and Early Childhood Development, Honourable Jody Carr, announced plans for a major re-organization of the Province's 14 School Districts. This action was taken to provide a more efficient and effective structure for schools to provide a quality learning environment for its students in light of the on-going changes in student demographics and fiscal accountability.
- On July 1, 2012, the present School District structure consisting of 9 Anglophone and 5 Francophone Districts will become 4 Anglophone and 3 Francophone structures.

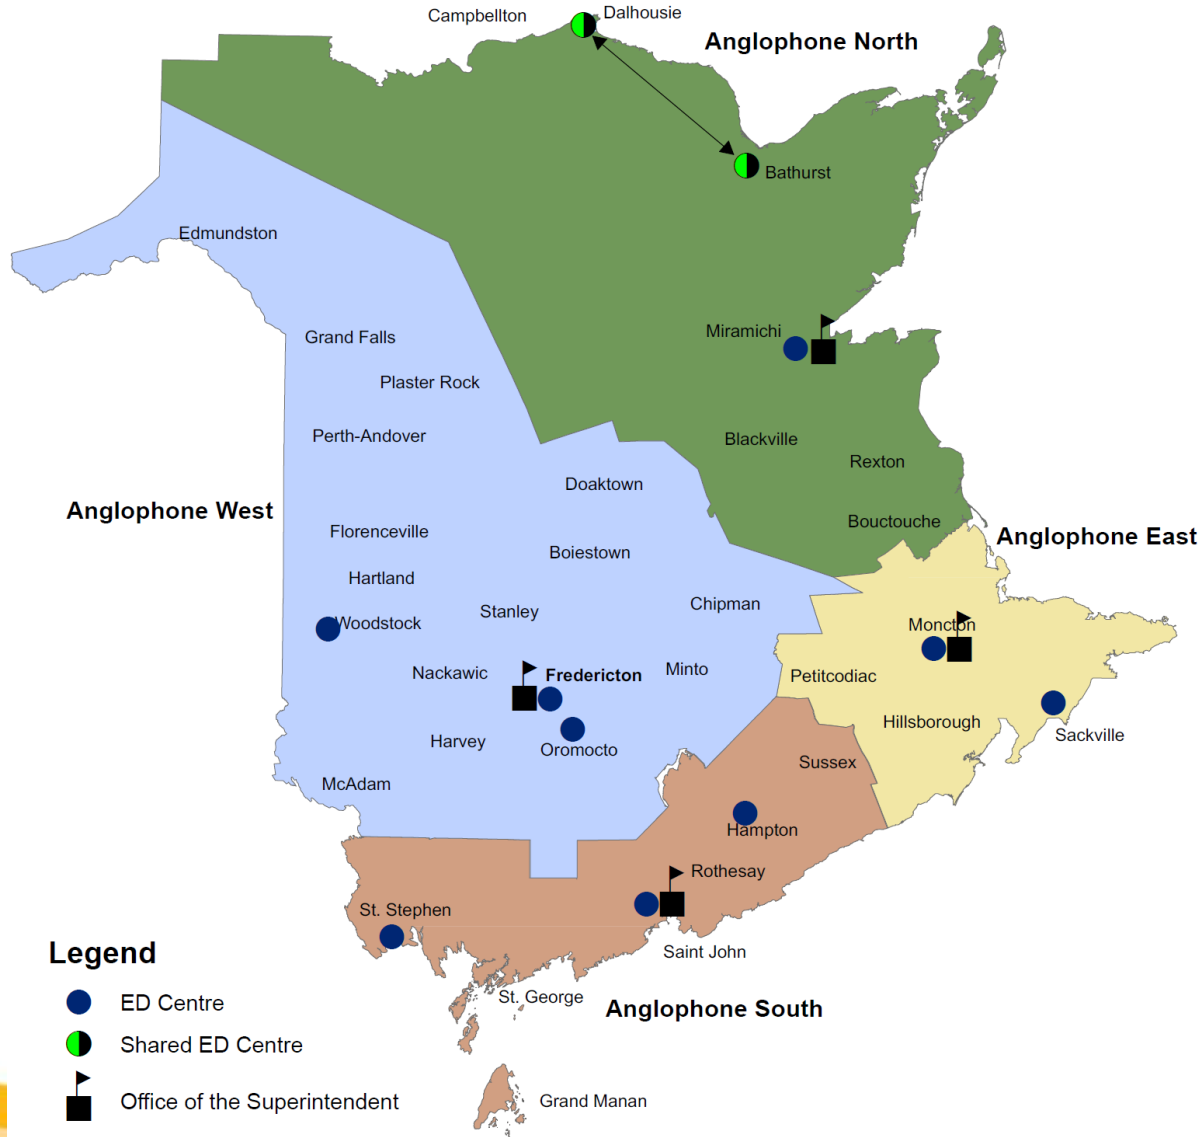

Our System WILL

- Have the student, and therefore the schools, the focus of all our efforts
- Promote and support inclusion
- Integrate early childhood development
- Embrace community involvement
- Welcome and promote parental involvement
- Permit creativity and flexibility and promote 21st century competencies in our students
- Be built on the leadership of our principals
