

- Special Year End Edition -

Backup

All those files and projects you worked so hard to create over the past school year need to be protected. This is the perfect time to **BACK UP** your work on your home drive and if needed an external hard drive. If you're still on the fence, ask yourself these 2 questions:

What is the price of a year's worth of work?
What is the price of an external hard drive?

Note: Do not store any student data on an

external drive.

Batteries

Over time, batteries leak and corrode whatever devices house them. June is the time to **REMOVE THE BATTERIES** from all of your classroom and school devices.

This includes but is not limited to: Smart Responders (a.k.a. clickers), GPS units, the microphone for your classroom FM system and cameras.

Summer PD - Fredericton

LearnEAST 2014 will be held at Bliss Carman Middle School in Fredericton on Monday, August 18th.

This FREE technology and learning conference provides an excellent opportunity to network with like-minded teachers from across the province and add tools to your techy toolbox for the upcoming

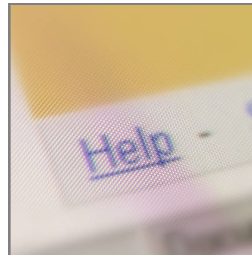

Unplug

Remember to **UNPLUG** items in your classroom that will not be used over the summer months.

This includes, but is not limited to: Smartboards, FM systems, projectors, extension cords, and classroom computers.

Help Desk

Summer is a great time to put in those lingering **HELP DESK REQUESTS** you haven't had time to get to all year. From laptop issues to classroom computers, if there is a

technology related issue that needs addressing put in your Help Desk request now!

To add a new Help Desk request click [HERE](#).

Summer PD - Moncton

In collaboration with Apple Canada, a FREE **Apple Summer Institute** will be held in Moncton on June 26th & 27th. This is open to all teachers, administrators, district staff and Department of Education representatives from across the Maritime provinces.

For more details and to register please click [HERE](#).
