

GSMS COVID Operational Plan for Events

Please follow these guidelines to attend an indoor event at GSMS. The school reserves the right to ask a spectator to leave if the below guidelines are not followed.

1. Wait until your event start time before entering. Ex: your event is 4:30-6pm, wait until 4:30pm before coming to the door to enter. For athletics, spectators only come for games. Spectators have 20mins from the event start time to enter. Doors always remain locked.
2. Everyone sanitizes hands when entering. If you leave the area for any reason, you re-sanitize when entering again. For athletics, spectators are to only be in the gym balcony.
3. To speed up entry, students participating in the event can enter right away to prepare. If a line builds up at the entrance, spectators allow those participating to go in front of you.
4. Spectators will wait at the entrance to show proof of full COVID vaccination to a designated individual. Anyone unable to show proof will not be allowed to enter. Contact tracing information will be recorded.
5. During sports, players are to wear a mask except for when playing.
6. Spectators wear a mask while in the event area unless you are taking a drink or eating. Spectators are asked to eat any food within a reasonable time.
7. Spectators must physically distance (2m or 6ft) from anyone in the event area that is not family. Students are welcome to attend as spectators, must meet COVID vaccination requirements for your age.
8. Spectators are asked to leave the event area immediately after the event. Those waiting for a participant are to go outside and physically distance from others.
9. Events where spectators are anticipated to be categorized as a “large gathering” will be limited in number as deemed appropriate by the school. At any point a school may choose to not allow spectators, but will make every effort to allow people in.
