

FCA Indoor Sports Spectator Operational Plan

In order to be considered for entry to an indoor sports spectator event hosted by FCA, the following rules must be adhered to:

1. Proof of full vaccination must be shown to a designated individual provided by the team. Any unable to show proof will not be allowed to enter the event area.
2. Contact tracing information must be provided in order to be granted access to the event area.
3. Spectators must wear a mask at all times while in the event area, with the exception being when taking a drink or eating food. Spectators are asked to consume any food within a reasonable and responsible period of time to provide safety for others in the event area.
4. Spectators are asked to leave the event area immediately upon completion of the event. Those waiting for an event participant can do so outside the event area while properly distancing from other spectators.
5. Events where spectators are anticipated to be categorized as a “large gathering” will be limited in number as deemed appropriate by the school.
6. Cleaning of the event area will be conducted in an appropriate manner.
7. FCA reserves the right to ask a spectator to leave the facility if the above safety rules are not followed.
