Notes:

- A final exam/assessment/presentation/production requires a student to be present to complete an in-class assessment.

If a final project or assignment is due, this requires a student to submit to the teacher prior to the time outlined in the above schedule. If not submitted before the time allocated, the student is required to attend the assessment session to complete.

- All assessments scheduled for Friday, January 25, 2019, in addition to any outstanding assignments still being accepted by the teacher, are to be completed for evaluation purposes on this final day of the assessment week.
- Unfortunately, Grade 10S has three final assessments on Friday; however, they are manageable assessments which consist of short written assignments, presentations of skills and a drama production. Your preparation, time and commitment will serve you well during these assessments.
- Students are asked to remain on campus until all assessments are complete and submitted.
