Interpretation:

- The superintendent must ensure that the financial position of the school district does not place undue strain on the ability of the school district to maintain its focus on achieving a balanced budget and prevent loss of services to its stakeholders.
- The superintendent must ensure that financial management staff follow "Generally Accepted Accounting Principles" (GAAP, CPA Handbook) and that any material discrepancies are investigated and reported during the financial reporting cycle.

Justification:

- The District Education Council has the authority under the Education Act 36.9(4), 50.2(3) & Regulation 97-150 (7-10) to develop a balanced expenditure plan and follow government accounting requirements for revenues and expenses.
- The Education Acts (48(1)) outlines the duties of the Superintendent. One requirement is to ensure district and provincial policies are followed.
- Regular reporting ensures that Policy 101 section 6.1.4.2 is followed and that the school district cannot incur deficits in either the capital or operating budgets.

Compliance:

- Financial reports are prepared by district financial staff and reviewed with the superintendent on a quarterly basis.
- Quarterly reports are presented to District Education Council by school district staff for approval, for submission to Department of Education and Early Childhood (EECD) in accordance with the schedule set out by EECD.
