

Black F Honors Award Criteria for 2021

The criteria for receiving the Black F Honors Award has been adjusted for the graduating class of 2021 due to the exceptional circumstances surrounding school closures in spring of 2020.

For graduates of 2021, students who have an average of 85 or higher will receive the award. Graduates need not apply, as averages will be computer generated. Please note:

1. Only students who were enrolled in a full course load in grade 11 and 12 will be eligible.
2. The average will be based on final marks attained in grade 11 and 12 (15 courses). Note that courses completed in semester 2 of grade 11 cannot count, as number grades were not assigned.
3. Only students who participated in all final examinations will be eligible.
4. Averages will NOT be rounded up (an average of 84.9 does not qualify).
