

DIGITAL PRIVACY TEST

Answer the statements below by circling one of the multiple-choice options provided. Good luck!

Question 1: A random person online asks for your birthday (Year/Date/Month) over a conversation online. Is this appropriate to share with them?

- a) Let me ask my mom.
- b) No! I don't know you!
- c) I don't see the harm!

Question 2: Your best friend told you he was sending you an attachment, what do you do?

- a) Download the attachment.
- b) Save the attachment to your computer, run a virus scan and then open it.
- c) Delete it.

Question 3: You took a great photo of you and your friend and you want to post it on social media. Choose the appropriate option below:

- a) Forward to my friend, ask their permission and my parents.
- b) Share with everyone.
- c) Share with no one.

Question 4: Which piece of information is appropriate to share online? (In a conversation or on your account).

- a) Your home address.
- b) Your social insurance number.
- c) Your full name.
- d) None of the above.

Question 5: Friends tagging you in photos and posts on social media (twitter, Facebook, Instagram) can put your privacy at risk.

- a) True. This could give away my location and what I'm doing.
- b) False. It's all just fun and games.

Question 6: You're going on vacation with your family and your phone asks if you want to post your location to twitter. What should you do?

- a) Share it! Everyone will know where I am during my vacation.
- b) Do not share it. I'm on vacation and sharing my location is dangerous.
- c) Share with only my closest friends.
