

April

Family Fun Project: Fly Into Spring with a Kite

Objective: to create and decorate a kite as a family and write about how it was created.

Directions: You have been provided with an outline of a kite. Cut out the kite. Then, as a family, work to turn this dull, white kite into a beautiful kite with a design of your choice, including a long patterned tail. Be creative and decorate your kite. Some items that you may want to use for this project are: tissue paper, paint, markers, streamers, ribbon, construction paper, yarn, crayons, felt, stickers, etc. Finally, as a family, work to describe who helped, what was used and the steps that were used to create the kite. Remember to use “order words” to make your writing organized (first, next, then, after that, finally). Print very neatly, use “fancy words” and long stretchy sentences! We always end with a wish, hope or feeling!

Due Date: All kites and writing are to be due no later than **Wed. April 26th**. All “Family Fun Projects” will be presented on this day and will be displayed on our hallway bulletin board.
