Holiday concert

Hotlunch Milk Orders

Please note that our Christmas concert will be on **December 14th**. The k-2 students will be performing at 9am and the 3-5 students will perform at 11am.

Orders are due
December 12th.

The order forms will
be coming home
this week ☺

Grade 1s Donating!

The grade one classes will be collecting donations of new stuffies/toys/board games for our **“Stuffies/Toys/Board Games for Sick Kids” drive**. We have a very big box to fill and want to cheer up as many kids as we can who have illnesses at the hospital this holiday season. Please send in a new stuffy, toy and board game no later than this Tues. Dec. 12th. Donations will be delivered on Wed. Dec. 13th. Thank you for your support in advance!

Math

Numeracy

This week, we will work on showing numbers to 20 by making equal groups using materials and pictures. Sometimes, when we use **equal groups** (the same amount in each group!), we have **some "left over"**. We call these **"singles"**. For example: to show 13 using equal groups, we might show 2 groups of 6 and have 1 "single/left over". We say: 13 is 2 groups of 6 with 1 single. Try using small objects at home (cheerios, buttons, Q-tips, chocolate chips) to practice showing numbers to 20 (and beyond for a challenge!). Practice telling about your groups to a family member. Continue to work at home on number recognition, proper formation of numerals, and counting forward and backwards from various numbers to 30.

HAPPY WEEK 😊

**I HOPE YOUR HOLIDAY
SEASON IS FILLED WITH
LAUGHTER AND SMILES**
