

# I See a Star

Greg Gilpin

I see a star, one shining star  
How it pierces the night with its wondrous light

I see a star, one shining star  
Brilliant, bold and bright.

I wish I may, I wish I might  
Have this wish I wish tonight  
That all the world, which lies in sleep,  
Wakes to find the hope it needs, the peace it needs,  
And love, peace and love.

I see a star, one shining star  
How it pierces the night, with its wondrous light

I see a star, one shining star,  
Brilliant, bold and bright,  
Brilliant, bold and bright!

I see a star.
