Dear Parents and Guardians:

Re: **TESTING FOR COVID-19 AT GEORGE STREET MIDDLE SCHOOL**

This is to inform that testing for COVID 19 for George St. Middle School is being done this weekend with results to be completed by Sunday evening. You may have already received a call for a repeat test.

Out of an abundance of caution we are asking all those who were tested on Tuesday and Wednesday this week following the case in the school, to be retested on Saturday or Sunday, not just those identified as close contacts.

Given the number of students and staff at George Street Middle School, this will give assurance against anyone who may have subsequently become positive after an initial negative test.

We appreciate your cooperation with this extra measure to keep all staff and students, and their families safe.

The assessment centre is contacting clients for this retest. There will be no need for you to book online.

Thank you for helping keep our school, community, and province safe.

Sincerely,

Dr. Jennifer Russell
