

6-Week Hands-on Science Program

New Program content!!!!

Mad Machines - Explore the six main types of simple machines including the wheel and axle, the screw, the lever, the inclined plane, the wedge, and the pulley.

Space – Go on a tour of the galaxy while we play planetary games. Create your own constellations. Build your own NASA telescope to take home.

Spy Academy - Become a super spy and learn clever ways of performing tasks as we take a hands on view of the science spies use. Make spy-noculars to take home.

Current Electricity - Investigate the power of current electricity in this exciting, electrifying class. Create series circuits and experiment with conductors versus insulators. Take home your very own circuit.

Energy Burst - Discover kinetic & potential energy. In this energetic class, we explore what makes your favourite toys work, what makes a flashlight shine, & more! Build a home made catapult to take home.

All About Animals – Feathers, fins, fur and more! Explore the animal kingdom and learn about the habitats, anatomy and life cycles of your favorite creatures.

Location: Assiniboine Ave Elem **Registration Deadline:** May 8

Cost: \$80

Wednesdays: May 15 – June 19

Time: 2:15 – 3:15
