It's Summer!

That means Bugs!

Q. Why do bananas use sunscreen?

Numeracy

Follow this link to see if you can complete the tasks to escape!

ROBOT TAKEOVER - MATH ESCAPE ROOM SCHOOL

You are sitting in class, just watching the clock and waiting for the last few hours of school to pass by. It is the end of the school year and nearly the start of the long break. Think of all the things you can get up to during the weeks you will have off – swimming, sleeping in, watching TV, - sounds great!

Suddenly the loudspeaker crackles... Evil laughter is followed by a cold voice – “I have taken over the school with the help of the math teacher and dispatched my robots.” – you recognise that voice... oh no, it sounds like the technology teacher! The voice continues, “As you aware, the end of the school year is almost here... OR IS IT?!... we both think you need to stay at school and learn more math over the holiday break. Our robots will keep you from leaving... the only way to stop them is by proving your math ability by solving a series of math problems... you will never leave... ahahaha.”

A robot suddenly rolls into the classroom and blocks the door. It then starts loudly speaking math riddles and problems! Ohh no – it’s your worst nightmare – an evil math-speaking robot!

The loudspeaker crackles to life again. “In your classroom we have hidden a chest – in this chest we have locked away a special remote control allowing you to control the robot at your door.” Your first challenge is to figure out how to unlock this chest and get the remote control!

Week 10

June 8-12

- ✓ Try to **read** with a family member or on your own, for at least **30 minutes each day!**
- ✓ Spend **30 minutes** of your day being **physically active!**

Literacy

- The extension activity below is part of the Numeracy activity for this week – give it a try!

HOLIDAY PLANS

What I am looking forward to most: _____

Four ways I can help out around my home: 1. _____	Five things I want to do during the holiday break. 1. _____
--	--

- Take a picture of your book stack for your time away from school – or a screenshot if you're reading on EPIC.
- Do the same for the summer! Share you stack with your teacher. 😊

A. Because they peel.

The 7 Habits of Highly Effective Teens

See how many of the habits you can incorporate throughout the week, and then the summer. Change your habits - change your world!

Habit 7: Sharpen the Saw
Find a balance - strive to continually improve your body, heart, mind and soul.

Habit 6: Synergize
Recognize other's differences and strengths. Combine your thinking for new possibilities.

Habit 5: Seek First to Understand, then to be Understood.
Listen intently to

Habit 4: Think Win-Win
Consider other people's needs and wants, and try to benefit all involved.

Habit 3: Put First Things First
Know your priorities, and don't let distractions keep you from doing your best.

Habit 2: Begin with the End in Mind
Think ahead. Make goals and have a plan to reach them.

Habit 1: Be Proactive
Take charge of your mood and choices - focus on things you can control.

Social Studies

A lot of delicate species, such as the bumblebee and the Monarch Butterfly have been greatly affected by pollution and human activity. Read the following article about one Canadian woman tracking Monarch Butterflies and complete a Who, What, When, Where, Why report.

The Five *Ws* and *How*

Who?	TOPIC	When?
What?		Where?
Why?		How?

Q. Why did the man love his barbecue?

Science

Are you interested in finding out what creepy crawlies are in your own back yard? Have you ever wondered what the difference was between bugs and insects? And finally, do you want to make your own Bug Zoo? Check out the following link to find the answers to all of the above!

Did You Know?

Test Your Bug Knowledge with this **Insect Trivia**

ART

DESIGN A ROBOT

Design your very own robot. Draw and write about what he looks like and what its functions are.

A. Because it was the grill of his dreams.
