Hello Grade 9 Husky Families,

Please note that the grade your student has in music is not a true representation of the final grade.

We have a focus on formative assessment rather than summative assessment at this stage in the class. With this process I am able to see how they are progressing and where they need support, what are whole class issues VS individual or small grouping issues.

This process allows the students to ensure they are prepared for the summative assessment, without the pressure of a "bad grade" due to lack of understanding. I have no fear of any student in the class being unsuccessful in Music 9 should they continue on this current track of learning.

This group of students is inspirational, I am so privileged to be teaching them. They possess a higher order of thinking and problem solving. They work together and support each other. They are willing to call each other out when someone is being inappropriate and a healthy, respectful dialogue ensues. They have the maturity to agree to disagree and speak up if someone is disrupting their learning environment.

They are wonderful young humans!

Thank you,

Amber Bishop
