

Our Epic Class Code is **ebs5537**

A habitat is the natural home of an organism. Oceans, mountains, and forests are some types of habitats. Many are threatened by human activity.

Challenge: Find a large-ish rock.

Flip it over to see what is underneath. Draw the plants & creatures that you spot in your field journal. Don't forget to put the rock back where you found it. Click on the photo to see the YouTube video "The World Under a Rock" for information on the types of creatures you may see under your rock!

Most of the 207 species of turtle are listed as vulnerable or endangered. Peyton and Molly were working to spread awareness & how to help.

Click here for a Ted Ed video

Check out some other Ted Ed videos too! Click on the photo to read 13 tips on how to help protect habitats.

Other ways to help turtles: Do not litter, organize a community or river cleanup (adult supervision), and never take a wild turtle home as a pet.

Art Lessons

"Art for Kids Hub" has lessons on how to draw, paint & do origami. Click on this pic to visit their website!

Some of my favourites on their site:

- How to draw a Mermicorn.
- How to draw a shark.
- How to paint blossoms.
- How to fold an easy origami flower.

Making Words:

G, R, A, D, D, N, N, E, E, E

Directions: 1. Setting up the page: Write the title (Making Words) and date at the top. Write the Letters at the top of the page. You may also want to write each letter on paper and cut them out to be able to move them around.

2. Making Words: How many words can be made with the letters above?

3. Secret Word: Discover the secret word that uses all the letters.

Start reading your Book Club book and respond to your group's question on [Flip Grid.com](http://FlipGrid.com)! Don't forget, if you want your book read to you as you follow along, you can find it on [Sora House Arrest](https://www.youtube.com/watch?v=Ug8vYUg8vYU) is on YouTube.

Use the "Flip code" below:

A Boy Called Bat: **bat5**

Song for a Whale: **songforawhale5**

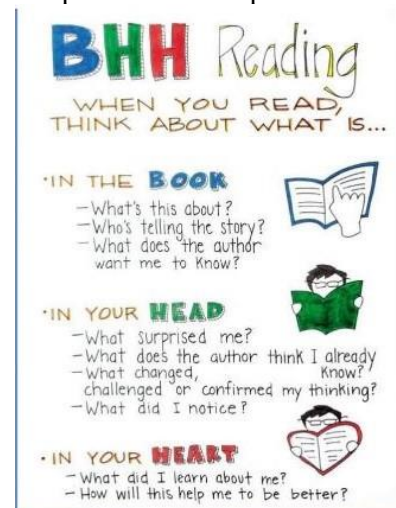

House Arrest: **arrest5**

Shouting at the Rain: **shouting5**

The Wild Robot: **wildrobot5**

There are 3 weeks of online learning left, read approximately 1/3 of your book. Watch this YouTube of "Let Me Finish" by [Minh Le](https://www.youtube.com/watch?v=Ug8vYUg8vYU). Keep that in mind if you read further on 😊 Please no spoilers in your Flip Grid responses!

After reading, write your answer to any three of these questions. Remember to use capital letters and punctuation.

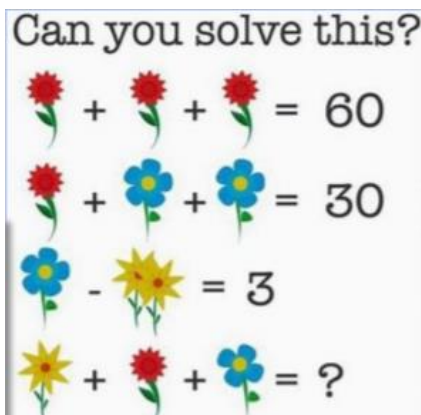

Remove the tens and face cards from a deck of cards.

Create a 3-digit number and divide by a 1-digit number.

Record and check your solution using multiplication.

Repeat 4 times.

Watch a digital clock. Add up the digits. At what time is the sum the greatest?

Here are two games to help you practice telling time:
