### **School Review**

We will be participating in a School Review on Dec. 9<sup>th</sup>- 11<sup>th</sup> at FES. Every school in the province goes through this on a cyclical basis. From this, goals will be set on how to move forward. ☺ Input is always a good thing!

### **School Improvement Plan**

We have worked diligently to get our SIP set up. The three main goals coincide with the District Plan.

- Improve Literacy results in grades 3-5
- To grow and learn together ( staff and students) on Assessment for Learning
- To Increase Student Engagement at school.

Each of these goals has strategies that can be measured by data. We have had district input and guidance into it as well. Working together creates wonderful results!

### **Driveway in Morning**

When dropping of your child in the morning please slow down and be alert to children getting out of both sides of the car. This is the very reason you are asked to stay in line and not pass anyone. We continually work at keeping the school yard safe. Thanks!

### **Science East Day & Evening**

What a wonderful event to host at FES. The hands on activities were so well received by the children. Creating a fun and innovative way to learn science is so important and beneficial to education young minds! They will be our future budding scientists! A big thanks to Dianne Antworth and Janet Smith for making this happen.

### **Hackmatack Reading Club**

In a partnership with the library we are participating once again with the Hackmatack program. Many children are participating and **READING**. Doesn't get any better than that! Merry Christmas!!
