WEEKLY PLAN – May 11 - 15

Subject	
Literacy	<p>English 9 -</p> <ol style="list-style-type: none"> 1. Remember to read every day – email me for suggestions or even to discuss what you are reading. 2. Writing – start a journal to document your daily thoughts or what you did each day. 3. Work on: Online Resources: https://ca.ixl.com/ 4. New Brunswick Public Libraries offer many learning experiences and free access to downloadable ebooks. To access this site, you will need your library card number. If you don't have one, get one online https://www2.gnb.ca/content/gnb/en/departments/nbpl.html

	<p>French 9: For Written or Oral French Activities, check your nbed email account and the Microsoft Teams app on Office 365.</p>
Numeracy	<p>Math 9 Please see summary on Mr. D. Fletcher's page on the HHS website. Click here for link</p> <p>Online Resources: Khan Academy offers math instruction for all levels of learners, organized by both subject and grade. https://www.khanacademy.org/math https://www.aaamath.com/ https://ca.ixl.com/ https://trockstars.com/</p>
Science	<p>See Mr. Woodworth's teacher page on the HHS website for a list of learning opportunities for this week. Click here to go to the website.</p> <p>Online Resources: Explore the Earth from Home is a collection of resources to explore weather, climate, air quality, and other earth science topics. https://scied.ucar.edu/help-k-12-students-learn-about-earth-home</p>
Social Studies	<p>Read this article about the first virtual sitting of the House of Commons from a couple weeks ago: https://www.cbc.ca/news/politics/covid-coronavirus-pandemic-house-of-commons-zoom-1.5548447</p> <p>It's a good reminder that even the pros have technical difficulties sometimes!</p> <p>That first sitting was on Tuesday April 28th, and since then the House of Commons has had a few more sittings. But this has also led to some concerns from the Speaker of the House, Anthony Rota. Read this article about some of the issues that have arisen: https://www.cbc.ca/news/politics/virtual-sittings-backgrounds-1.5558051</p> <ol style="list-style-type: none">1. The Speaker of the House of Commons is one of the 338 elected Members of Parliament, but they also play a special role during sittings of the House. Research the role of the Speaker and write a short paragraph describing their role.2. The first two issues that Rota raised in the article were backgrounds and clothes that may be considered unprofessional. Do you agree that backgrounds should be "as neutral as possible" and not include "displays, props and exhibits"? How do you feel about how MPs dress during these virtual sittings? Explain your opinion.3. Imagine you were the MP for New Brunswick Southwest. Describe, draw, or take a picture of the background you would use during one of these virtual sittings. Does your background have any elements that represent your riding or political views?

	<p>Online Resources:</p> <p>Newsela provides students with thousands of texts on topics they care about most. https://newsela.com/</p>
<p>Life Skills</p>	<p>Money Matters Part 2 – Paying Rent</p> <p>Last week you were asked to investigate meal planning and the cost of food for one week. When you graduate high school and move onto College/University or enter the work force, you may have to then start to figure out where to live.</p> <p>Where can you look for housing? What type of housing are you looking for? How can you find ways to save money? How much does housing cost? Will you have to make sacrifices on what you would like in order to be able to afford housing?</p> <p>Use different sources to research renting an apartment or house. Look through online ads, newspaper ads, or find websites that help you find housing. When you move out, are you looking at moving into residence? If so, investigate the costs of living on campus for a year. Will your parents be helping you with rent? Will you have to work to save money? Will you have to take out a loan?</p> <p>Try to find a housing situation where you could afford to live. It is very important that you do not actually contact anyone about renting, just use the ads to give you a good idea of the costs. How much money will your rent cost for the first year after High School? How can you assure that you have enough money to pay for that rent?</p>
<p>Phys. Ed.</p>	<p>It is recommended that you complete 30 minutes of physical activity a day.</p> <p>Accuracy – working on accuracy can help you in many different sports and lifestyle activities. Here are some ideas on how to work on your accuracy at home.</p> <p>Bean Bag toss – using a pair of rolled up socks, place a laundry basket a short distance away, and try to toss the socks into the basket. Move the basket farther away and try again. Try different angles and distances. Try to make 10 shots in a row from each angle.</p> <p>Darts – If you have a dart board, you can practice your accuracy by playing darts. There are many games online that you can play alone if you have no one to play with.</p> <p>Bowling – find empty plastic bottles and place them on a hard floor in a basic bowling pattern. Find a soft ball, or you can use a pair of rolled up socks and slide the ball towards the bottles to knock them down. To make it a little more difficult, add a little water to the bottles to make them heavier.</p> <p>Shuffleboard – If you have a hard floor at home, use tape to mark out targets a distance away (use non-marking tape, like painter’s tape). Use lids from jars and slide them across the floor to land in the targets. (Make sure the lids are clean and are not going to scratch the floor before starting).</p> <p>Bocce ball – If you have a bocce ball set, great! If not, try to find several balls of the same size and shape. If playing indoors, you could use pairs of rolled up socks. Find another ball of smaller size (or a smaller pair of socks). Go online and research the rules of Bocce ball. It is a great way to pass time with a sibling or parent.</p>
