

Hello Lakers Friends and Family

- Chartwell's is officially providing food services every day! The menu has been outstanding.
- New technology has been purchased! The technology sees 15 new laptops dedicated to middle school. The laptops will allow teachers to enhance student learning.
- Harvey High is looking at refreshing the computer lab and examining introducing: 3D printers, heat press, sewing machines, green screens, iPads, t-shirt maker, pod cast equipment, mircobits and more. The computer lab will be reconfigured and allow our students to engage in developing and bringing their ideas to life.
- Semester two is almost here. We have been able to create a schedule that will allow our grade 9-12 students some exciting opportunities, such as having grade 9 having some time in the skilled trades shop class.
- There has been lots of discussion regarding the changes coming to the French Immersion program, even though the changes do not impact Harvey High right away, it is important to share your voice and hear what the changes entail. Please check social media to learn more about surveys, virtual meetings and in-person meetings. If you want to participate and are unsure as to how, please contact the school.

Upcoming events:

January 23-27: Assessment week for grade 9-12 students

Jan 30 and 31: Turn around days

NO school for grade 9-12 students

February 1: First day of second semester

Remember to follow us on Instagram and our Harvey High Facebook page.

Yours in Education

Jeremy MacIver
