

We are presently working on Unit 2: Understanding Numbers. The learning goals are:

- * use place value to represent whole numbers greater than one million.
- * solve problems involving large numbers, using technology.
- * determine multiples and factors of numbers less than 100.
- * solve problems involving multiples.
- * identify composite and prime numbers.
- * apply the order of operations to solve multi-step problems, with or without technology.
- * demonstrate an understanding of integers.
