

# Doubles Plus Two

**Materials:** Doubles Plus Two gameboard, 2 sets of cards, counters

---

1. Work with a partner. Sit on opposite sides of the gameboard.
2. Take turns to turn over the top card in the deck and explain how you could use the doubles plus two strategy to find the sum. Record the equation and use a counter to cover the sum on your side of the board.

$$5 + 7$$

I know that double 5 is 10  
and  $5 + 7$  is two more, so  
 $5 + 7 = 12$ .

3. Continue taking turns until one player has covered all numbers on his or her side of the board.

I know that double \_\_\_  
is \_\_\_ and \_\_\_ + \_\_\_ is  
two more, so

$$\underline{\quad} + \underline{\quad} = \underline{\quad}.$$

The double of \_\_\_ is \_\_\_.  
Two more than \_\_\_ is  
\_\_\_, so

$$\underline{\quad} + \underline{\quad} = \underline{\quad}.$$

I know that double \_\_\_  
is \_\_\_ and \_\_\_ + \_\_\_ is  
two more, so

$$\underline{\quad} + \underline{\quad} = \underline{\quad}.$$

The double of \_\_\_ is \_\_\_.  
Two more than \_\_\_ is  
\_\_\_, so

$$\underline{\quad} + \underline{\quad} = \underline{\quad}.$$

$2 + 4$

$3 + 5$

$4 + 6$

$5 + 7$

$6 + 8$

$7 + 9$

$8 + 10$

$9 + 11$

$10 + 12$

22 20 18 16 14 12 10 8 6
