Not your average Hopscotch!

Are you up for a challenge? Are you looking for a new way to stay active? Do you have a creative mind and a little time on your hands? Why not create a hopscotch challenge? Watch the following video and see what some families have created to help them stay active :)

<https://abc7news.com/hopscotch-challenge-silicon-valley-shelter-in-place-games-to-play-while-sheltered/6106954/>

Don't have pavement? Be creative! Your challenge doesn't have to be made with chalk, use your imagination! Twigs, stones, hula hoops, rope... the possibilities are endless!

If possible, send a video to your friends and challenge them to create their own hopscotch course as well!

Have fun! :)

LANGUAGE ARTS

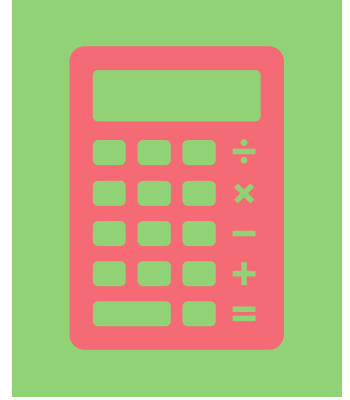

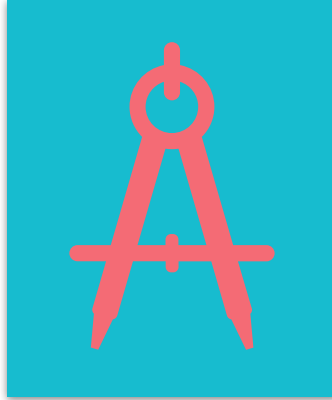

Hello 6M! I hope you are all enjoying the challenges that your classmates have created; I have been enjoying them and since there are so many to choose between I would like to give you an extra week to try them. If you have already completed a challenge you can choose another, and if you haven't tried one, this is your chance! Good luck and have fun!

This week we are going to listen to Chapters 22 through 28. I know that is a lot to listen to, but we are getting close to the end and I would really like for you to be able to finish the novel. There will be questions sent to you and you are to choose which ones you would like to answer, you do not have to do them all :) Details will be in Teams.

I hope you are enjoying the beautiful weather! Take care :)

Math

Please complete for Friday, June 5.

This week we decided to give you a bit of freedom in deciding what you would like to work on in math. In the attachment you will find a board with a variety of math activities. Pick any **3** activities from the board to work on this week. The choice is yours! Please feel free to reach out to Mme. Allen if you are having difficulty with the activities.

Answer the following questions after completing the activities you choose to do and email them along with your work to your teacher by Friday.

1. What did you work on?
2. What did you enjoy working on
3. What were some of the challenges you encountered?
4. Did you find the math game enjoyable?
5. Do you have any questions that you would like to ask?
