

3x INKY PUZZLES

(Taken from https://krazydad.com/inkies/sfiles/INKY_v14_3X_b002_4pp.pdf)

- Fill in the blank squares so that each row and each column contain all of the digits 1 thru 3.
- The heavy lines indicate areas (called *Cages*) that contain groups of numbers that can be combined (in any order) to produce the result shown in the cage, **with the indicated math operation.**
- For example, **12x** means you can multiply the values together to produce 12. **3-** means you can subtract the values for a difference of 3. **4+** means you can add the values for a sum of 4. Numbers in cages may repeat, as long as they are not in the same row or column.
