Question: What happens when a frog parks illegally?

Language Arts

I have enjoyed all the emails regarding last week's assignment. Keep up the good work. For this week continue listening to "Where the Red Fern Grows" by Wilson Rawls, Chapter 15, through audiobook on YouTube and once you are done, send me a 3 to 4 sentence summary of the chapter via email at melissa.hickey@nbed.nb.ca.

In the summary, you could tell me:

- What happened in the chapter;
- What parts you liked the most;
- What parts you didn't like ;
- What do you think will happen next.

To locate the audiobook, do the following steps: go to YouTube and type in "audiobook where the red fern grows chapter 15". Select the one you want to listen to and enjoy!

Math

This week we decided to give you a bit of freedom in deciding what you would like to work on in math. In the attachment you will find a board with a variety of math activities. Pick any three activities from the board to work on this week. The choice is yours! Please feel free to reach out to Mrs. Wilson if you are having difficulty with the activities.

Friday, June 5th: Check in Day. Students will email Mrs. Wilson (anne.wilson@nbed.nb.ca) to give a brief update after **completing the math activities you choose to do**. Questions to consider answering:

- (A) What did you work on?
- (B) What did you enjoy working on?
- (C) What were some of the challenges you encountered?
- (D) Did you find a new math game that you enjoyed?
- (E) Do you have any questions that you would like to ask?
