

Grade 7 Public Health School Immunization Clinics (Boys and Girls)

Dear Parent/Guardian:

Horizon Health Network Public Health will be offering the second dose of **HPV** (protection against the Human Papillomavirus) to complete the series that was started at the beginning of the 2019-2020 school year. It is very important to complete this series of vaccines to ensure your child develops the appropriate level of protection from the Human Papillomavirus.

This clinic will be **June 22** and will be held at **Perth-Andover Middle School**

Due to the Covid -19 Pandemic, and restrictions put in place, this clinic will be run differently than those completed in the schools. Please read the very important directions listed.

1. Students will be asked to arrive at the exact time that is identified in this letter.
2. Students will be invited to attend in limited numbers based on first letter of their Last name.

A-F	10:00
G-P	10:30
Q-Z	11:00
3. Students are asked to enter the facility by themselves by the **front door**. They will exit by the back door and walk around the building to the parking lot. Parents will wait in the front parking lot. If the student is unable to attend independently, please contact Public Health to book an appointment at the Public Health Office.
4. Public Health staff will be present to ensure the physical distancing is maintained. We encourage you to discuss with your child the importance of maintaining physical distancing despite the possible excitement of seeing classmates.
5. Students will be screened for illness, travel, and contact with confirmed or suspected cases prior to entering the facility.
6. Walking, and waiting areas will be clearly marked and identified so students can maintain physical distance.
7. Hand sanitizer stations will be present throughout the facility and students will be encouraged to use them.
8. We welcome students to wear a mask if they have one, if not one will be provided to them.
9. Keep in mind as you are waiting for your child, they are required to complete a 15-minute wait after receiving the vaccine.

If you have any questions, please contact the Public Health office at **325-4732/325-4773**.

Sincerely,
Cindy McKinley-Brown BNRN
