October 28, 2014

Minister Rousselle,

On October 23, 2014, the Anglophone West School District Education Council (ASD-W DEC) held its monthly public meeting at the Stanley Elementary School in Stanley. Among many things on the agenda that night was the presentation of a report by our Superintendent, David McTimoney, on the potential of conducting a sustainability study for one or more schools. This report was delivered in compliance with our DEC Policy Governance model and complies with DEC Policy ASD-W-EL7: Closure of Schools.

In that report, the Superintendent made a recommendation to conduct three sustainability studies within ASD-W, namely:

- Bath Middle School
- Coles Island School
- Stanley Elementary School/Stanley High School Complex

After some discussion, the District Education Council passed a motion that called for the acceptance of the Superintendent's report recommending these three sustainability studies and to subsequently act upon this recommendation.

In accordance with the Department of Education and Early Childhood Development Provincial Policy 409 (Multi-year School Infrastructure Planning), Section 6.4.1, this letter will serve purpose as written notice to you, as Minister, of our intent to conduct these sustainability studies, effective immediately.

On behalf of the District Education Council, I wish to assure you that we will follow the process outlined in Policy 409, pertaining to sustainability studies. In doing so, we will ensure quality public consultation and transparent sharing of information.

We plan on writing to you, again, in March, 2014, with the results of our study.

Sincerely,

Mark Noël
Chair, District Education Council
Anglophone West School District
