

Let's Save Coles Island School

To the District Education Council:

We, the concerned citizens of and for Coles Island, are strongly against a school closure for Coles Island School. If a closure is enforced, our community's children, as young as four and five years old, will be transported outside of our area and endure long bus rides to and from school. The school is the heart of our community. Our children need a sense of belonging to our community instead of being forced out of it. Save our school to save our rural community. We urge the District Education Council to keep Coles Island School open.

To the Honourable Legislative Assembly of New Brunswick, Assembled:

The petition of the undersigned concerned citizens for Coles Island, humbly wish that the Coles Island School which houses elementary students of the community remain open. Wherefore your petitioner humbly prays that your honourable house may be pleased to take such action in order to keep the school open, and in duty bound your petitioner will ever pray.

We urge the District Education Council to keep Coles Island School open.

To the Honourable Legislative Assembly of New Brunswick, Assembled:

The petition of the undersigned concerned citizens for Coles Island, humbly wish that the Coles Island School which houses elementary students of the community remain open. Wherefore your petitioner humbly prays that your honourable house may be pleased to take such action in order to keep the school open, and in duty bound your petitioner will ever pray.

Let's Save Coles Island School

To the District Education Council:

We, the concerned citizens of and for Coles Island, are strongly against a school closure for Coles Island School. If a closure is enforced, our community's children, as young as four and five years old, will be transported outside of our area and endure long bus rides to and from school. The school is the heart of our community. Our children need a sense of belonging to our community instead of being forced out of it. Save our school to save our rural community. We urge the District Education Council to keep Coles Island School open.

To the Honourable Legislative Assembly of New Brunswick, Assembled:

The petition of the undersigned concerned citizens for Coles Island, humbly wish that the Coles Island School which houses elementary students of the community remain open. Wherefore your petitioner humbly prays that your honourable house may be pleased to take such action in order to keep the school open, and in duty bound your petitioner will ever pray.
