January 29, 2016

Dear Parents/Guardians of Students at McAdam Elementary School:

On May 21, 2015, the Anglophone West District Education Council (DEC) voted in favour of engaging a sustainability study of McAdam Elementary School, under the process of Provincial Policy 409 – Multi-Year School Infrastructure Planning. This policy serves as a foundation for determining the sustainability of a school, taking into account many aspects, such as:

- Enrolment
- Health and Safety
- Quality Education
- Transportation
- Impact on Community
- Finances
- Economic Development
- Impact on Other Schools

On January 28, 2016, the DEC held the third public meeting in this process. At that meeting, the Council voted in favour of maintaining the status quo at McAdam Elementary School. This decision is also communicated with the Minister of Education and Early Childhood Development.

In line with Provincial Policy 409, there is no need for the Minister to approve the vote of DEC to maintain the status quo. As such, the sustainability study is now complete and classes will continue, as is, at McAdam Elementary School.

I wish to thank you for your interest in this study and your continued support of the school.

Sincerely,

David McTimoney
Superintendent
