

Our yearly **Chompers**

## Reduce/Reuse/Recycle Challenge.

We are keeping it super easy this year...

Have your child choose something you would normally recycle or throw away and turn it into something new. Be as creative and inventive as you want. If parents/guardians want to share with me, simply take a picture of the finished product and send it to [Kathy.young@nbed.nb.ca](mailto:Kathy.young@nbed.nb.ca) with a quick blurb on what it is made from? And what is the name of your creation/Invention by Earth Day which is April 22<sup>nd</sup>. I really look forward to seeing the student's creativity!

## Take care and stay safe.

We miss you!!
