

ISOLATION SURVIVAL GUIDE

**For families
and the young
at heart**

**Big Brothers
Big Sisters**

The MOST IMPORTANT thing we can all do is take care of our mental health and well being during these trying times.

You are not alone, stay strong, we are all in this together. **What we think is how we feel.** Try these mindset mantra's when you find yourself getting caught up in fear and anxiety.

Mindset Shift During a Pandemic

I'm stuck at home

I get to be SAFE in my home and spend time with my family

I will get sick

I will self-isolate and wash my hands, this will significantly DECREASE my chances of getting sick

I will run out of items at home during self-isolation

I have prepared for this and I will use my items wisely. I have everything I NEED for now

Everything is shutting down, I'm panicking

The most IMPORTANT places, such as medical centers, pharmacies and grocery stores, remain open

There is too much uncertainty right now

While I can't control the situation around me, I CAN control my actions: Doing breathwork, calling loved ones, getting enough sleep and proper nutrition, prayer, and doing activities I love at home will all help during this time

PLAN FOR A GREAT DAY!

- Eat healthy & hearty meals
- Get moving and stay active
- Take in some fresh air & have fun in the sun
- Stay informed by credible sources
- Learn something new, start a project at home
- Make time for self care

If the mere thought of planning or sticking to a routine stresses you out. Take a deep breath! You're doing just fine.

Using this guide and other community and online resources, identify some things you'd like to try or find interest in. **Engage your family** in the planning; children and teens are easily motivated when they are given an opportunity to have a say.

Encourage a routine that works for you and the individual members of your family. It does not need to be 9-5 to work effectively! The main goal here is to find some normalcy in a routine that keeps your mind, body and spirits active and healthy!

**INCLUDE THESE 6 INGREDIENTS
IN YOUR DAILY ROUTINE FOR OPTIMAL
HEALTH AND WELLNESS**

There are no rules in navigating these difficult times and everyone (kids included) are stressed and fearful of what will happen next. From what we know Self-Isolation and Social Distancing is our new reality for the coming weeks and possibly months.

Let's make the best of it!
