

Stairway to Service

A new monument will be added to the Jervis Bay- Ross Memorial Park. Bayside Middle School is partnering in this project. The *Stairway to Service* is a set of thirteen granite steps which will be added to the west end of the park.

This new stairway replaces a set of wooden steps which have deteriorated and have been removed. The new steps will have engraved boot steps and shoe prints of veterans who served during the Second World War. This monument will also include engraved names of any veteran or currently serving service person for a fee of \$125.00. A photograph and short biography of each person will be placed on-line on a website which will be created and maintained by the students of Bayside Middle School.

If you wish to have a family member or friend's name added to this monument, please send an email addressed to the President at jervisbay@rogers.com
