Girls donate hair to *Locks of Love*

Back L-R: Rosa Pimentel and Nele Storck

Front L-R: Rachel Parker, Chelsea Doiron and Taylor Doucette

These girls, as well as Spenser Clive and Taylor Henderson, donated their hair to *Locks of Love*, an organization that takes human hair and makes wigs for cancer patients. The girls chopped their hair off at an assembly held March 21st to kick off Harbour View's *Relay for Life*. To learn more, turn to page 4.

Fiddler on the Roof coming to HVHS stage

By Mallory McDonald

Goodbye winter. Hello spring. Hello musical!

With the change of seasons comes HVHS's rapidly approaching production of *Fiddler on the Roof*. Rehearsals for the show have been going very well and the cast and crew have been working hard to put together a spectacular show.

Fiddler on the Roof is vastly different from last year's production of *Phantom of the Opera* and offers a new set of challenges for everyone involved.

Grade 12 student Jacob Dempster plays the role of Tevye. "My role is much larger this year and therefore it's quite a lot more work," says Jake. "I feel more involved with the rest of the cast this year, though. I love my character because he's a really honest. He just wants what's best for his daughters. He's intelligent, but he's kind of a goofball. He's a lot of fun to play."

Claire Logan is also in grade 12 and is in the chorus. This is her first musical. "All my friends talked about how much they've had doing musical. I had some free time this year and so I thought I'd give it a try," says Claire. "It is a lot of time, but it's well spent because I'm with my friends and I am learning a lot about the stage."

Fiddler on the Roof will be your final opportunity to see some of our school's more seasoned performers including: Kylie Fox, Sarah Alston, Jacob Lawrence, Hannah Wallace and April Wong. We encourage everyone to check out the show.

The dates for the show are April 17-20 at 7:30. There is a matinee Saturday April 20 at 2pm. There is reserved seating and tickets are \$12 for students/seniors and \$15 for adults. For more information call 658-5359.

The gruesome tale of Sweeney Todd

By Rachael Vance

I had the fantastic opportunity to attend a Saint John Theatre Company's production of *Sweeney Todd*. The cast was extremely talented. It was great to see many performers of all ages represented on stage. The story of *Sweeney Todd* was unfamiliar to me, but perhaps some people will remember Johnny Depp in the title role. With no prior knowledge of the story, I was surprised many times throughout the evening.

Sweeney Todd was a barber who had been wrongly imprisoned and separated from his wife and daughter. He escaped from prison after 15 years and returned to London to seek revenge on those who had wronged him. Sweeney met Mrs. Lovett who became his partner in crime. He also found that his daughter was alive and he dreamed of the day they would meet. The musical also had a surprise ending that kept you on the edge of your seat.

The story was very well portrayed by the actors. They brought the people to life and made you care about the characters, even Sweeney Todd. The singing was amazing and it was interesting to see that many of the cast were involved with their high school musicals when they were younger. I am proud that there is so much musical talent in Saint John. The band also provided the build up the scenes required. The theater was filled and it was obvious that the crowd thoroughly enjoyed the performance. I cannot wait to see their next show.

From the editor

By Rachael Vance

Why is Earth Week important? There are many things that are threatening the environment. Some of these things we have the opportunity to change. Earth week is a chance to shine a light on what people and industry can do to positively impact the future of our planet. There are small things we can do such as recycle, drive the car less and to decrease our use of electricity by turning off the lights when you leave a room and take shorter showers. (I know this is especially hard for teenagers). Governments also can do larger things like enact laws decrease emissions to slow down global warming. Saturday March 23, 2013 was when Earth hour was recognized. People were supposed to turn off the lights, televisions and all other electronic devices. How many of you remembered? Everyone needs to make changes so that our planet survives to be enjoyed by generations to come.

HVHS Alumni: What are you doing now?

Did you graduate from Harbour View, or know someone who did?

We are encouraging all **HVHS** graduates to join our growing alumni community. Re-connect with old friends, classmates, and teachers, make new friends, organize and partake in fun activities, and help to make your alma mater a rewarding experience for current and future Vikings! We'd love to hear from you!

Contact Ms. MacPhee (nancy.macphee@nbed.nb.ca), Sarah McCord (sarah.mccord@nbed.nb.ca) or join the Facebook group to sign up!

This week I watched the movie Argo. This movie was based on real events and takes place during the Iran hostage crisis of 1989. In the film, the US Embassy in Iran is overrun by angry protestors at the peak of the Iranian revolution. The militants take 52 American Embassy workers hostage and hold them within the Embassy; however, six manage to escape during the chaos and seek refuge in the Canadian ambassador's dwelling. During this very difficult time between the two nations, the CIA specialist Tony Mendez (Ben Affleck, also the director) is tasked with the seemingly impossible job of getting these six survivors out of Iran without letting anybody find out about their true identity. Tony Mendez decides on a seemingly impossible plan which might be crazy enough to work. The details of this mission have recently been declassified so that the public can now witness the extraordinary feats which were accomplished during this tense time.

My favorite aspect of this movie was the suspense it created. Even though this was a real life incident, and I already knew going into the movie how it would end, the film kept me on the edge of my seat throughout the entire ordeal. The movie only ran two hours but was easily able to convey all of the necessary details of the story in a short and interesting manner that flowed well with the timeline of events. I am always slightly skeptical going into movies which are directed by and star the same person, but Ben Affleck did a great job at balancing these two roles and giving each character his/her own degree of depth. I liked that Affleck played a different kind of CIA agent in this movie. We are always bombarded with CIA characters who are emotionless killers who rely on their fists and guns to get them out of bad situations. Tony Mendez showed us the human side of a CIA protagonist, and he was able to deal with conflicts with his intelligence and wit as opposed to physical strength. The movie also managed to veer around the major political issues of the event so as to focus more on the mission itself without having to create a good guy-bad guy political debate.

The only aspects which I found disagreeable with the movie were its stretches of particular details. The movie made it appear that the entire project was American-run while in reality Canada was responsible for most of the planning and preparations. Canada especially took most of the risk in creating fake passports for the Americans due to the fact that Canada was not part of the hostage crisis. This movie had a very patriotic core and it is understandable that the producers might want to focus on specific details in order to feed to the idea of American triumphalism. At the end of the day, these details themselves were not changed and if Affleck wishes to focus on some more than others he can do so. The only other aspect of the movie which made me shudder was that the movie featured some unrealistic scenes where the difference of a second could have been the difference between success and certain death. I understand when some producers do this in fictional pieces because it is a created story to begin with, but when the film is based on real life events, I prefer when Hollywood skips some of the over dramatization. However, since this film is still only *based* on true events, it permits Affleck to change details if he pleases.

All in all, I found this to be a very well done film which documented a tense period in history that is about as close to real life as Hollywood can get. I would give this movie 4.5 stars out of 5 and would recommend it to anyone who enjoys a suspenseful film based on real events.

Relay for Life kicks off in (hair) style

By Kailey DeLucry and Nicholas Williams

The *Relay for Life* assembly held March 21st set the tone for what is bound to be another successful relay event. *Relay* has become a highly anticipated event at HVHS and in six years we have raised over \$110,000. Harbour View's devotion to this event was evident when seven girls agreed to cut their hair at the assembly to be donated to Locks of Love.

Relay for Life is one of the most exciting nights for students, who not only get the chance to support a great cause but have fun doing it. Movies play all night long, food in endless supply and our own students provide musical entertainment.

Claire Logan has attended *Relay for Life* for the past three years. "I look forward to *Relay*," she says. "It's an awesome night with all my friends. I love to have fun, but it's also nice to remember those who are suffering. Everyone should participate."

This year's *Relay* is taking place on May 31st from 6pm to 6am. Registration is taking place over the next few weeks until May 17th. Hope to see you at *Relay* this year.

Rachel Parker loses several inches of her hair at the *Relay for Life* assembly held on March 21st.

HVHS students form Community Resource Centre

By Emily McMillan

The Community Resource Center (CRC), recently held a bake sale to raise in funds for The Sunshine room. The Sunshine room is Harbour View's very own food bank. It also contains many other items useful to high school students who might find themselves in need. These items include clothing, toiletries and school supplies. Although to some of us these items might not seem like a big deal, to someone else it could mean the world. Not everybody is fortunate to have a lunch every day, or a supper every night.

This might be the first time you've heard of CRC fundraising but the bake sale was our second fundraiser. Earlier this year we made pancakes for students who donated winter wear, canned food or some extra cash.

At the moment there are only a few students in our group. If you are interested in joining CRC, please see Ms. Tanfara. Don't wait for next year; make a move now, because you can make a difference in someone's life.

SPORTS BEAT...A MONTHLY LOOK AT HVHS SPORTS

BY MATT COCHRANE

Volleyball season is finally here, with rugby and rowing soon to follow.

The boys volleyball team have started their season off with a huge bang. In both tournaments they've played so far, they've finished second and have also had one split decision against Saint John High. They have many more games to come and they need all you Vikings to get out and support them. The next home games for our volleyball teams are as follows:

Jr. Boys - April 3

Jr. Girls - April 4

Sr. Boys -April 5

Sr. Girls - April 9

H-what? HV! Let's get ready to play rugby. Yes, that's right. After waiting all winter, it's finally here. Your HVHS rugby teams are going into battle April 19, 20 and 21st at RugbyFest. Come out to RNS and watch bring home our second banner in a row.

Also, if you're thinking, "Oh, I want to play rugby, but it's probably too late for me to join," you're wrong. We are still having practices and new members are always welcome. So, get out to rugby or I'll come looking for you. (See Mr. Bidgood for more information.)

Well, that's it for sports news this month. I'm Matt Cochrane. You stay classy, HVHS.

Right: Taylor James serves at a recent JV Girls volleyball game.

Envirothon teams learn by doing

Submitted by Ms. Lennon

This year at Harbour View we have three Envirothon teams. We have several returning members, Kaila Miller, Rachel Lunn, Brynn Aucoin, Jenna Pitre and, unique this year, two sets of siblings: Lacey and Misty Lee and Cecil and Bronson McCavour. The rest of the teams are made up of Rachel Vance, Robin Goss, Dillon Hebert, Makyle McLellan, Mike Cunningham, Shane Childs and Kerrie Doucette. This group makes for an interest dynamic as we have a lot of laughs and they are a very enthusiastic bunch.

In the Envirothon, there are several outings to local parks in Saint John such as Irving Nature Park, Rockwood, and Fallsview to help students learn various components of forestry, wildlife, aquatics, and soils in preparation for our field tests. As we lead up to the competition on May 5 to 6, teams will be attending a couple of workshops and working with a few guest speakers to gain some hands-on learning and hear from people who work in these particular fields. One workshop that is always looked forward to by everyone is our time at Elmhurst Outdoors as we will be there for the maple sugar run!

Les Bonnes Nouvelles à Harbour View

Nous avons un nouveau pape

Par Kailey DeLucry

Nous avons un nouveau pape! C'est un événement vraiment intéressant parce que le pape précédent, Benedict XVI, ne se sentait pas suffisamment en bonne santé pour continuer. Il a été remplacé le 13 Mars 2013 par le pape Francis, de l'Argentine. Pape Francis a été largement acceptée comme un cardinal et ses valeurs ne sont pas traditionnels comme ont été déjà vu avec les papes du passé. Il portait un costume simple et a parlé en Latin pendant la première messe. Il est le premier pape d'Amérique latine et des Jésuites pape.

Le Journal

Par Nicholas Williams

Voici les cinq premières chansons françaises de ce mois-ci! Prenez une chance et écoutez, peut-être vous trouverez un nouveau chanteur préféré.

Pinterest

Par Claire Logan

Pinterest est un site de média social qui est à la hausse dans la course de popularité mois après mois. Avec plus de 40 millions de membres actifs, il y a toujours quelque chose à trouver. Vous pouvez suivre les autres membres et "repin" quoi que ce soit de l'artisanat, faites vous-même à des recettes saines sur votre propre conseil d'administration. Cela peut paraître déroutant au premier abord, mais le site est extrêmement facile à utiliser.

Ce site peut aider quelqu'un! Si vous avez besoin d'une idée de dernière minute pour le souper, vous pouvez certainement en trouver sur Pinterest. Il suffit de taper ce que vous recherchez dans la caisse de recherche et des centaines d'idées seront là pour vous guider vers le repas parfait. Peut-être que vous aimez l'artisanat, ou les projets de bricolage! Pinterest, bien, c'est l'endroit pour vous. Il y a des récits entiers dédiés à la recherche des projets les plus amusants et "repinning" directement dans votre tableau de bord.

Beaucoup d'étudiants ont utilisé Pinterest et l'ont trouvé utile dans leur vie. Voici une citation d'un étudiant Harbour View, Jenna Dobbelsteyn:

"Pinterest est un site web que je n'ai pas découvert jusqu'à ce qu'il y a quelques mois. Depuis, j'ai essayé huit recettes, six projets et livres lus que je n'aurais pas connue sans adhérer. C'est un moyen facile de se connecter avec des amis et de partager toutes sortes de choses ayant des idées chics à des photos amusantes. Si vous êtes passionnés ou intéressés par rien et vous ne savez pas trop comment le partager, rejoignez Pinterest. C'est si facile à faire et je vous garantis que vous ne regretterez pas."

Pinterest n'est pas encore un site de médias sociaux, mais il est quelque chose de plus. Il s'agit d'un livre de recettes en ligne, un album photo et une inspiration de la mode tout en un. Comme Jenna dit, vous ne regretterez pas de rejoindre.

Check mate: students participate in district tournament

Peter Meng has been playing chess for 12 of his 18 years.

“Initially I was interested in Chinese chess, which is a little bit different,” he explains.

Meng has been living in Saint John for the past seven months and he is an avid member of Harbour View’s chess team, which is organized by Mr. Bidgood.

“When I used to play as a kid, my parents would always tell me I was smart when I won,” Meng says. “Now it’s just part of my life.”

Chess has been around for 1500 years, originating in India. Organized tournaments began in the mid 1800s.

Although Meng claims he now plays chess because he enjoys it, he says he still likes to win.

“Chess is a good game for everybody,” Meng says. “You play sports to get fit and chess can do that , too. Chess is training for the brain.”

How good is Meng?

“I nearly beat him the other day,” laughs Mr. Bidgood.

Meng agreed. “He almost had me, but then he did an important move wrong.”

Meng joined fellow chess players at the District Chess Championships held on the 23rd of March. The results were:

Grade 9: 2nd Bennett Comeau

Grade 10: 1st Hayden Debell

Grade 11: 1st Peter Meng, 2nd Ryan Brown

Grade 12: 1st Elias Melanson, 2nd Jordan King

Back L-R: Peter Meng, Haydon Debow, Jordan King, Elias Melanson

Front L-R: Bennett Comeau, Ryan Brown
