

# Earth Rangers at Your School!

Earth Rangers is the kids' conservation organization, dedicated to educating children and their families about biodiversity, inspiring them to adopt sustainable behaviours and empowering them to become directly involved in protecting animals and their habitats.

Visiting over 800 schools annually across Canada, Earth Rangers travels from Whitehorse to St. John's and everywhere in between, educating and inspiring the next generation of environmental leaders!

## The Earth Rangers School Assembly

The Earth Rangers School Assembly is a dynamic and interactive presentation for Grades 1-6 that leverages the shared, innate connection children of all backgrounds have to animals. Through the power of live animal demonstrations and positive, science-based information, our high-quality program educates students about the importance of protecting biodiversity while highlighting real conservation initiatives across Canada. The program is recreated each and every year, ensuring the inclusion of current and relevant topics and staying fresh and exciting for students and teachers.

Throughout the Assembly, students are introduced to four of the Earth Rangers Animal Ambassadors, including animals like Kateri the Peregrine Falcon, Gizmo the Eurasian Eagle Owl, and Quillow the Prehensile-tailed Porcupine.

**The 45-minute Assembly takes place in your school's gym and will feature:**

- An immersive HD multimedia experience
- LIVE Animal Ambassadors demonstrating their amazing natural behaviours
- A fun and interactive game that gets students and teachers involved
- Educational, curriculum-linked information appropriate for Grades 1-6

## How We Engage Students in Conservation

Earth Rangers focuses on the importance of protecting animals and empowers students to take action. Each year, different threatened Canadian species are highlighted throughout the presentation. Children learn about their natural history, the current threats these animals face in the wild and real-world conservation projects taking place to protect them. Some of the animals we'll be focusing on during the 2016-17 school year are the Woodland Caribou, Pine Marten, Midland Painted Turtle and Eastern Small-footed Bat.

## What Sets Us Apart

Earth Rangers' energetic and passionate presenters and animal trainers have formal education in relevant science fields and go through extensive training, rehearsal time and quality control to ensure our program is always delivered to the highest quality. Further adding to the quality and impact of the program is a fully designed travelling set including high quality audio/visual components.

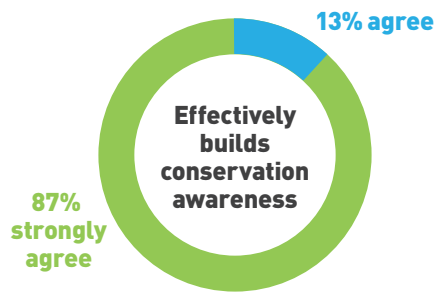

## What Schools Are Saying About the Earth Rangers Assembly

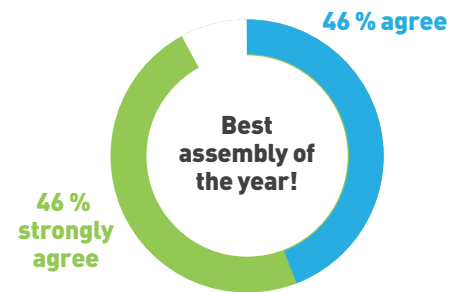

In 2016, we asked 100 schools what they thought of the Earth Rangers School Assembly Program:

"Teachers have taken the show and turned it into classroom lessons... Thanks for a great job!"  
- Principal in Yellowknife, NWT

"Our students gained a greater understanding of how precious our planet truly is."  
- Principal in Morinville, AB

"It was one of the best shows that our school was fortunate to have among us. The students were all attentive... Hats off!"  
- Teacher in Whitby, ON

## After We've Left...

The Earth Rangers School Assembly is not a one-off experience, but an inspirational introduction to a program that encourages lasting engagement!

The biggest differentiator between our program and others is the follow-up component of becoming a member, completely free of charge. Our Membership Program provides children with an engaging online experience and tangible activities that make an impact on real-life conservation projects and environmental initiatives. To participate in the Membership Program, children visit [earthrangers.com](http://earthrangers.com) and register to become an Earth Ranger.

Teachers can also continue to engage their classes on these issues by accessing our Classroom Activities and Curriculum Resources by visiting the Teachers section on [earthrangers.org](http://earthrangers.org).
